RESEARCH PARTICIPANTS WANTED

Engineering ethics decision-making with AI advisors

Take part in a Monash University research study on how students work through engineering ethics scenarios with support from AI agents.

TIME NEEDED
10 Minutes

FORMAT
Online

GET STARTED BY
Scanning the QR Code below!

What you'll do

1. Read 2 short engineering ethics scenarios
2. Decide what you would do in each one
3. See advice from a panel of AI agents, then keep or revise your decision
4. Complete a short questionnaire

You can take part if you are:

- Over 18 years old.
- Studying or employed in an Engineering or related field
- NOT a Malaysian citizen

What you get

- Feedback at the end of your session on how your decisions compare with expert opinion
- Anything Else?
